# REGULATIONS

FOR THE SALE AND MANAGEMENT OF

# PUBLIC LANDS,

APPROVED BY

**HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.**

~~~~~

1. That the lands in Townships which have already been delineated or shall hereafter be delineated on Survey by the exterior lines only, may be offered for sale *en bloc* on the following terms, namely :

2. That the price shall be one half dollar per acre, payable at the time of sale.

3. That the purchaser shall cause the lands to be surveyed at his own expense into lots comprising either one hundred or two hundred acres of land in each lot; and on the north shore of Lake Huron into quarter sections of 160 acres each, except in spots where the configuration of the Township may render such exact quantities impracticable, and then as near to those allotments as possible.

4. That each Survey shall be made by a duly licensed Provincial Land Surveyor approved of by the Commissioner of Crown Lands and acting under his instructions, who shall make his return with Field Notes, &c., &c., in the usual method observed by Surveyors, to be also approved of by the Department.

5. That one-third of the quantity of land in the Township shall be settled upon within two years from the time of sale; one-third

## INTRODUCTION.

---

The Publisher in presenting the first volume of the Hastings Directory to the public, does not deem it necessary to say much by way of preface. **1390184**

Considerable difficulty has been experienced in collecting and arranging a list of about 10,000 names, and it would not be strange if some inaccuracies have occurred. No pains have been spared either in its compilation or correction, to make it as complete and perfect as possible.

An important error, which was not observed until after the whole edition had been printed, occurs on the first page of the description of Belleville, (page 104)—an error however, which the reader will easily correct. Instead of “*Moirs, Bridgés and Hotel Streets*, running in northerly and southerly directions,” read, “running in easterly and westerly directions.”

The thanks of the Publisher are due to the business men of both Town and County, who by subscriptions and advertisements, have so liberally patronized the work, and he confidently hopes that it will not fall short of their expectations. Further improvements will be sought after in future editions.

# COUNTY OF HASTINGS.

---

## ITS COMPARATIVE CONDITION.

THE periodical publication of the Statistics of a country is the only true index of its prosperity and growth. By it we learn what progress is being made from time to time in agriculture, commerce and trade. Comparing data with data, fact with fact, we are enabled to decide whether a country is progressing or retrograding. And, oftentimes, these Statistics—dry though they may seem to the superficial observer—showing, not only in what ratio a country advances, but in how much greater ratio it might advance, are an incentive to action—are important aids in the still further development of a country's resources.

No one, taking within his mind's grasp the position of the County of Hastings for the past twenty years, and marking yearly its advancement in agriculture, in education, in trade and commerce, but must acknowledge that it has kept pace with the progressive spirit of the age. No one can look upon the well-cultivated fields, the handsome dwellings, and commodious out-buildings, where twenty years ago the forest stood in all its grandure and wildness, but must confess that real and substantial progress has marked our course. No one can look upon the thriving and prosperous Villages which have sprung up as if by magic all over the county, where twenty years ago, a solitary husbandman may have been the only settler, but must be satisfied that our progress has been as rapid as it is real and substantial. Follow up the comparison. Compare the old log school house of twenty years ago with the neat and substantial frame, brick and stone of to-day—the pedagogue, whose stock-in-trade was a birchen switch and a smattering of the common English branches, with the well-educated teacher of to-day. Compare the system of our Common Schools of that date, with the system now in operation. Then, there was little to encourage, either

parent or child, while the poorer classes were to a great extent unable to obtain a knowledge of the common rudiments of an English education. Now, with liberal grants from Government, and with the free school system, which almost universally prevails, no parent need allow his child to grow up to manhood without a knowledge, not only of the common English branches, but can, through Grammar Schools, give him a good commercial and classical education. Compare still further the excellent gravel and macadamized Roads, which now form as it were a net-work through the whole County, with the old corduroy roads of a score of years ago. To proceed still further in our comparison. Look at our extensive mills, factories, and workshops, where the busy hum of machinery is heard from morn to night—our elegant homes, comfortably and luxuriously furnished—our imposing public edifices, and commodious warehouses, and contrast to-day with twenty years ago, and mark our rapid progress.

Hastings was separated from the Midland District in 1839. To show the growth and advancement of the County, we append the following statistics :

#### ITS SITUATION.

The County of Hastings is situated on the north shore of the Bay of Quinte, commanding a frontage on the Bay of about thirty miles, and extending to within three miles of the head of said waters. It comprises within its limits several Townships, a Town, and many

\* Independent of the Town of Belleville.

† This includes the Town.

growing and prosperous Villages. The Incorporated Village of Trenton, the Townships of Sidney, Thurlow and Tyendinaga, and the Town of Belleville, lie immediately adjunct to, and fronting the Bay of Quinte; Rawdon, Huntingdon and Hungerford, are immediately in their rear; Marmora, Madoc, and Elzevir to the north, and Lake, Tudor and Grimsthorpe are to the north of these. Within three years twelve new Townships have been laid out adjoining to these last, and are now incorporated with the North Riding of the County. Through the latter, a public Road, known as "The Hastings' Road," has been opened by the Provincial Government, and Free Grants of land are made to those who desire to go in and settle the country.

#### THE HASTINGS' ROAD.

This Road commences on the northern boundary line of the Township of Madoc, and takes a course N. 16 degrees west for a distance of seventy-four miles, forming the centre line of two ranges of seven Townships, each within much easier access to settlers, than the Townships thirty miles from the Bay of Quinte some six or seven years ago. The tract of country through which the first forty miles of the Hastings' Road runs, presents a very varied aspect. The soil is a sandy loam, mixed with clay in some places, and in others, with vegetable mould of more or less richness. This portion of the road is now pretty well settled, and a large number of the lots in the Townships, on both sides of the road, are being taken up by actual settlers. Continuing along the Hastings' Road, in a northerly direction, through the tract of land to which we have referred, we have a fine level, or rather gently undulating country, between the branches of the Madawaska River, emptying into the Ottawa. This tract of land is of excellent quality, and extends for a width of 18 or 20 miles in a north and south direction, and extends east and west to a considerable distance. The timber, chiefly hard wood, is large, straight, and thrifty. The soil is a mixture of vegetable deposit with sandy loam, and the crops of every description, have been in every respect satisfactory for the past three seasons. The climate of this part of Canada is decidedly healthy; probably the most so of any part of the continent of America. The country is rapidly filling up with a good class of settlers, and in the ordinary course, the lands which are now given free will be worth from five to twenty dollars

an acre in a few years. In order to facilitate the settlement of the country, the Government has authorized free grants of land along this Road, not to exceed in each case one hundred acres, upon application to the local agents, and upon the following

CONDITIONS OF SETTLEMENT :

“ That the settler be eighteen years of age.

“ That he take possession of the land allotted to him within one month, and put in a state of cultivation, at least twelve acres of the land in the course of four years—build a house, (at least 20 by 23 feet,) and reside on the lot until the conditions of settlement are duly performed ; after the accomplishment of which only, shall the settler have the right of obtaining a title to the property. Families, comprising several settlers, entitled to lands, preferring to reside on a single lot, will be exempted from the obligation of building and of residence, (except upon the lot on which they live,) provided that the required clearing of the land be made on each lot. The non-accomplishment of these conditions will cause the immediate loss of the assigned lot of land, which will be sold or given to another.

“ The road having been opened by the government, the settlers are required to keep it in repair.

“ The local agent, M. P. Hayes, of Madoc, will furnish every information to the intending settler.

“ The LOG-HOUSE required by the government to be built, is of such a description as can be put up in four days by five men. The neighbors generally help to build the log-cabin for newly-arrived settlers, without charge, and when this is done, the cost of the erection is small, the roof can be covered with bark, and the spaces between the logs plastered with clay and whitewashed. It then becomes a neat dwelling, and warm as a stone house.

“ The lands thus opened up, and offered for settlement, are, in sections of Canada West, capable, both as to soil and climate, of producing abundant crops of winter wheat, of excellent quality and full weight ; and also, crops of every other description or farm produce, grown in the best and longest cultivated districts of that portion of the province, and fully as good.

“ There are, of course, in such a large extent of country as that referred to, great varieties in the character and quality of land—some lots being much superior to others ; but there is an abundance of the very best land for farming purposes.

“ Water for domestic use is every where abundant ; and there are, throughout, numerous streams and falls of water, capable of being used for manufacturing purposes.

“ The heavy-timbered land is almost always the best, and of it the ashes of three acres—well taken care of, and covered from wet—will produce a barrel of potash, worth from £6 to £7 currency. The capital required to manufacture potash is very small, and the process is very simple and easily understood.

“ The expense of clearing and enclosing heavily-timbered lands, valu-

ing the labor of the settler at the highest rate, is about FOUR POUNDS currency per acre, which the first wheat crop, if an average one, will nearly repay. The best timber for fencing is to be had in abundance."

#### LANDS GENERALLY.

The Lands generally, in the County of Hastings, are of a superior quality, and insure, in every instance of proper husbandry, certain and abundant crops. Such lands as are at present unimproved, are owned, either by private individuals, the Crown, or the Canada Company, and may be obtained from either at fair prices, and on easy terms of payment. An office is established at Belleville, for the registration of all conveyances, and incumbrances relating to lands, in which are preserved all records of titles, made since the settlement of the county. This office serves as an important guide to strangers, in assuring themselves of good titles. The improvement that is constantly taking place throughout the County, and particularly in the Town of Belleville, warrants the assurance that a moderate number of industrious laborers and Mechanics, of different trades, would meet with profitable employment, and to all classes of emigrants, especially those who have some capital, or the means of purchasing, and to Manufacturers of all kinds, who have capital and enterprise, no part of Canada presents fairer prospects, than the County of Hastings—no better field exists for the employment of industry and capital, with the sure certainty of a profitable return, than this County.

#### LUMBERING.

The Lumber capabilities of the County are by no means exhausted. Immense pineries, and extensive forests of heavy timber, still await the lumberer's axe, and this business, which has been such a source of prosperity to the County for years past, will still be a source of wealth, for years to come.

#### BAY OF QUINTE—THE PROPOSED CANAL.

The emigrant who may desire to visit or settle in the County of Hastings, when he reaches Quebec may proceed either by steamer or the Grand Trunk Railway to Belleville. If he prefer the former, he takes the through steamer, proceeding up the St. Lawrence as far as Kingston, thence up the Bay of Quinte, one of the most beautiful sheets of water to be found in North America. The scenery along this route is grand and majestic, and the eye never tires of

gazing upon the high perpendicular banks covered with foliage, the beautiful slopes, the well-cultivated farms, the small villages nestling on some side hill, or lying in the valley. He arrives at Belleville, which by water, is distant from Kingston 75 miles. From Belleville, stages run daily to the principal Villages in the back country, and for a trifling sum the traveller can go and examine the lands in any of the Townships. From Belleville to Trenton, the western boundary of the County, it is ten miles by water. Here we arrive at the head of the Bay, which is separated from Lake Ontario by a narrow strip of land about four miles wide. Now that the Government is seeking to force the traffic of the West down the St. Lawrence, the projected Canal will in all probability be cut, making the navigation from the far West still more secure. A vessel entering the Bay by this Canal would avoid all the dangerous navigation of Lake Ontario, besides shortening the route some fifty miles. The construction of this Canal is only a question of time.

#### RIVERS.

Within the County there are three important Rivers, which take their rise some 75 to 100 miles to the north, and emptying into the Bay of Quinte, which in its turn flows eastward, and helps to swell the torrents of the mighty St. Lawrence.

#### THE TRENT.

The *Trent*, in the western section of the County, is the largest stream of the three, and possesses innumerable privileges for driving machinery, though as yet these privileges are comparatively unoccupied. Large quantities of square timber, and scores of thousands of logs are every Spring brought down this River from the extensive lumbering districts 50 and 70 miles back, and made up into rafts to go down the Bay and the St. Lawrence to Quebec, or manufactured into lumber at the mills at the Trent, and shipped by schooners to the American market. The Trent is a rapid stream, and in many places broad and deep. The scenery is beautiful—the shores in some places lined with dense foliage—in other places, high, jutting rocks, where occasionally a stunted cedar shoots out between the ledges, and one wonders where it derives its nutriment.

#### THE MOIRA.

The River *Moir*a empties into the Bay at Belleville, and for sites for mills and factories, and machinery of every description, presents

advantages unrivalled. There is an incessant change and variety of scenery—the bottom lands along the course of the River are beautifully fringed with willows, or covered with half-grown oaks, while both shores are covered with heavy masses of foliage, occasionally broken by ledges of rocks. High hills are occasionally seen in the distance, as we pass along the River, covered with grass and tall trees of different varieties, and in many places their summits are beautifully bordered with pines. Immense quantities of lumber are every year brought down this stream from a distance of 40 to 60 miles to the north, and manufactured into lumber at the extensive Saw Mills in Belleville. For twenty and thirty miles back, Flouring and Saw Mills are erected at different points on the River, and at Belleville we have very extensive Mills and Factories of various kinds, supplied with water power from this River. These Factories might be increased ten-fold without affecting the supply of water.

#### THE SALMON.

*Salmon* River empties into the Bay about one mile south of Shannonville. It is a fine stream, and furnishes a large number of Flouring and Saw Mills, at different points, with motive power. Thousands of logs are also brought down this River, as well as large quantities of square timber. The logs are converted into merchantable lumber at some large Mills at Shannonville, and other places.

#### FACILITIES FOR INCREASING MANUFACTURES.

Probably no other County in Canada possesses such splendid water power privileges as Hastings. Three large, rapid streams pursue their tortuous course throughout the County, fed by numerous tributaries, furnishing at a thousand different points splendid Mill sites, and an ample supply of water to drive any description of machinery. Instead of simply carrying on Flouring and Saw Mills, and Agricultural Implement Factories and Foundries, we might have extensive Woolen Works, where all kinds of Cloth could be manufactured—we could carry on the manufacture of Cottons, for there is no reason why we should send the raw material to England, and bring it back in its manufactured state, when it could be wrought up here and furnished to our merchants at a cheaper rate than it is now purchased—we might have Boot and Shoe, and complete Edge Tool Factories, Locomotive and other Iron Works, and numerous other

branches of industry established and successfully prosecuted. In fact, we might become emphatically a manufacturing community, for Providence has furnished us with every facility, and it is for us to take advantage of our position. Our mineral resources are valuable and inexhaustible, and we have access by Railway and Water to the chief marts of the East and West. Numerous and valuable water power privileges can be obtained within the vicinity of Belleville, Trenton, Shannonville, and Villages in the back country, where capitalists might invest with advantage to themselves and benefit to the country.

#### THE ROADS.

Few Counties in the Province can boast of having as good Roads as this. From Belleville, there are excellent Gravel and Macadamized Roads, leading to different points, and by a wise provision of the Municipal authority, with the sanction of the people, these Roads have all been made free, and thus we have removed from the limits of the County a great hindrance to its prosperity—Toll-Gates. We have now nearly 200 miles of first-class Roads, centering in Belleville, the chief market place of the County.

#### PROPOSED RAILWAYS.

In addition to the Grand Trunk Railway which passes from one to two miles from the shore of the Bay through the Townships of Tyendinaga, Thurlow and Sidney, having four Stations within the County, a project has been started for the construction of a Railway from Belleville to Marmora. Two routes have been surveyed, one running through the Township of Huntington, the route of which will be seen by reference to the Map accompanying this work. The distance by this route would be  $32\frac{1}{2}$  miles. The other route surveyed, which is also laid down on the Map, is designated the "Moir Valley Route." The distance to Marmora by this route would be  $45\frac{1}{2}$  miles. It would be impossible to estimate the benefits Belleville and the County would derive by the building of this Road. The mineral wealth of the interior which now lies hidden in the earth, would find a market through this channel of communication. That this Road will be constructed is a question which will not be disputed.

#### IRON ORE—MARBLE, ETC.

This brings us to refer, more particularly, to the immense deposits of Iron Ore, and other valuable minerals, with which this County

abounds. In the Townships of Marmora and Madoc, there are valuable minerals, the supply of which is inexhaustible. Both at Marmora, and Madoc, the mines have been worked; but, the expense of carrying the Iron to market, over the common Roads, is so great, as to render its manufacture unprofitable. When our Railway shall have been built, these mines will, under better management, yield us their rich treasures, and be a constant source of prosperity.

There can be no speculation, as to the richness of the Iron Ore, here found. Specimens of the Ore, and the Iron in Pig, and Bar, were sent to the World's Exhibition in London, and it was declared to be the best known in the world, for the purposes of Machinery, and as such obtained the prize. In the manufacture of superior Iron and Steel, it has been pronounced, as being of the purest and richest description. All that is required, is facility of transport of the raw material, for the establishing of Blast Furnaces in Belleville, which manufacture, if encouraged by but a small protective duty, would become a source of industrial wealth, and afford employment to hundreds of operatives. The County is not only rich in Iron Ore, but very extensive Marble beds—white, black, and variegated, and equal to any in America—and quarries of Lithographic stone, as well as Lead Ore, are found in great abundance, in various parts of the County. Further details respecting our Minerals, can be found in the information contained in connection with the Townships.

#### GEOLOGY OF THE COUNTY.

To the Geologist, the County of Hastings presents a wide field, in which to pursue his pleasing and interesting study; as it abounds in fossil and other formation; for a description of which we are indebted to Mr. CHAPMAN, Professor of Geology, in the Toronto University, as follows:

The rock formations present in Hastings County, comprise, in an ascending order: (1), The Laurentian Series of Canadian geologists; (2) some of the Lower Silurian rocks; (3), the Drift Formation; and (4) certain recent deposits of local occurrence.

1. *The Laurentian Formation*:—The rocks of this division constitute the most ancient deposits hitherto recognised on the continent of North America. They extend from Labrador along the North shore of the St. Lawrence, to within a short distance of Quebec, from whence they continue inland, and cross the Ottawa at the Lac des Chats. West of this point, their outcrop sub-divides into two branches, one of which passes towards the south-east, crossing the St. Lawrence at the Thousand Isles, and forming the wild district of the Adirondack Mountains

in the state of New York. The other branch sweeps broadly towards the north-west, and its southern edge runs through the south limits of the Townships of Elzevir, Madoc, and Marmora, in Hastings County, and, continuing its course, strikes Lake Huron at Matchadash Bay.

The Laurentian rocks form also the greater portion of the north shore of Lake Superior, and cover an enormous area throughout the northern part of the Province, generally. In popular language they are often, though incorrectly, called *granite*. True granite never occurs in beds or strata, but always in irregular, and generally intrusive masses, or in veins; whereas our Laurentian rocks are always stratified. They are looked upon as altered sedimentary deposits, and belong chiefly to the rocks known as micaceous and hornblendic (or syenitic) gneiss. Micaceous, or common gneiss, is composed of quartz, feldspar, and mica, and has usually a grey or red colour, but is sometimes almost black. Hornblendic or syenitic gneiss consists of quartz, feldspar, and hornblende, and possesses in general a well-marked green colour; or is, otherwise, red and green, or red and black. These rocks, in layers or strata of different colours, alternate with one another, and occasionally by the absence of feldspar, pass into mica slate and hornblende slate. They are frequently traversed by broad bands and veins of white quartz, and in some localities, are interstratified with beds of white, pink, and greyish crystalline limestone or marble. A bed of this substance occurs at the village of Bridgewater, or Troy, in Elzevir Township; and others of fine quality lie in Barrie Township, a little beyond the limits of the county. Marble is likewise found in the Townships of Madoc and Marmora; but it should be mentioned, that, white quartz is sometimes mistaken for it. Attempts have even been made by persons ignorant of the nature of this latter substance, to burn it into lime. It may not, therefore, be out of place to point out the more salient, distinctive characters of the two, as in the following table:—

#### MARBLE:

Dissolves with effervescence in diluted hydrochloric or nitric acid\*. Does not scratch glass, but may be easily scratched by a knife.

#### QUARTZ:

Not attacked in any way by acids. Scratches glass easily, and does not yield to the knife.

These Laurentian or gneissoid rocks constitute also the great iron-holding rocks of Canada. This metal occurs in Hastings County in the form of the Black or Magnetic Iron ore, a compound of the oxide and the sesqui-oxide of iron, containing in percentage values, Iron 72.4, Oxygen 27.6. This valuable mineral forms thick beds, interstratified with the gneiss, in the Townships of Madoc and Marmora; but the ore used at the Marmora smelting works, when these were in operation, came chiefly from the south shore of Crow or Marmora Lake, in the adjoining Township of Belmont. When the ore contains small shining specks or particles (Iron Pyrites) of a brass-yellow colour, it should be made up into heaps and roasted, and afterwards subjected for some time

---

\* Hydrochloric acid is the muriatic acid or spirit of salt of the stores. For testing limestone rocks it should be diluted with an equal bulk of water, and kept in a small bottle provided with a glass stopper.

to the action of the atmosphere, before being taken to the furnace.—The masses of ore broken out of the rocks and mixed up with the Drift of this locality, are abundant in some places, and of excellent quality, the pyrites having become decomposed, or oxidized, by long exposure to atmospheric agencies.

In the north part of Elzevir Township, as well as in adjoining townships beyond the limits of the county, some of the green or hornblendic beds of gneiss, contain numerous garnets in well-defined twelve-sided crystals, or rhombic dodecahedrons, of a brownish-red colour. These, however, are only of value as mineralogical specimens.

The Laurentian rocks described above, occur in highly inclined strata, dipping generally (at least along their more southern outcrop), towards the north-west. The succeeding or overlying Silurian strata, on the other hand, lie on the upturned edges of the Laurentian rocks, in almost horizontal beds. A good section, exhibiting these relations, may be seen on the river banks at Marmora village †.

Although, as a general rule, where Laurentian rocks prevail, the country is not favorably adapted for agricultural occupation, many acres of good and fertile land occur upon this formation in Hastings County. The more rocky portions also, if useless in other respects, will probably constitute available grazing lands, as the country becomes gradually cleared.

2. *The Lower Silurian Formation*:—This formation is sub-divided from the upper part downwards, into the following subordinate groups:

5. The Hudson River Group.

4. The Utica Slate.

3. The Trenton Group.

{ The Trenton Limestone.  
 { The Black River Limestone.  
 { The Bird's-eye Limestone.  
 { The Chazy Limestone.

2. The Calciferous Sand Rock.

1. The Potsdam Sandstone.

In Hastings County, the three lower members of the formation are alone present; and of these the Potsdam Sandstone and Calciferous sand-rock, are more or less blended together, and are also but slightly developed. Their common representative appears to be a calcareous sandstone of a few feet in thickness, occurring immediately above the Laurentian rocks, or at the extreme base of the Silurian formation. This sandstone is of a light greenish colour above, passing into pale red, or pale red with irregular greenish spots below. It may be seen in horizontal position, or dipping almost imperceptibly toward the southwest, on the river banks at the village of Marmora, and also on the banks of the river Moira at Tweed village, in Hungerford township, as well as other places near the outcrop of the Laurentian rocks. It is apparently destitute of fossils. The succeeding Trenton group, properly

† The reader interested in these details, may consult also a sketch of the stratification near the village of Bridgewater, in Elzevir Township, given in a paper, by the writer of this notice, in the *Canadian Journal* for January, 1880, [New series, vol. V.]

so called, is, on the other hand, largely developed, and constitutes the foundation rock of the whole of the South Riding of the County, and also of the southern portion of the North Riding. At its base in the North Riding, a band of fine grey limestone, available as a lithographic stone, is met with. This is succeeded by (in general) a thick-bedded limestone, poor in fossils; and the latter is again followed, in ascending order, by thin-bedded and shaly limestones, containing fossils in great abundance. A list of these fossils, comprising various corals, brachiopods, &c., collected around Belleville, may be seen in a paper by the writer, published in the Canadian Journal for January 1860, [New Series, vol. V.]. The Trenton limestone is well displayed along the banks of the Trent, Moira, and Salmon Rivers, and in many places on the shores of the Bay of Quinte. It yields excellent lime; and building stones of good quality are obtained from some of the thick beds, as at Ox Point, near Belleville, and elsewhere. Some care, however, is required in their selection, as many of them are apt to crack from minute flaws; but properly selected blocks appear to resist the action of frost remarkably well.

3. *The Drift Formation*:—An accumulation of clay, sand, and gravel, with rounded stones or “boulders,” partly of limestone, but chiefly of the more northern gneissoid rocks, is spread over the surface of the greater part of the County. The same deposit extends indeed over the larger portion of the Province itself, and reaches far into the United States. Geologically, it is known as the Drift, or Drift and Boulder formation. Its age is much more recent than that of the underlying rocks. Between the deposition of the two, an enormous interval of time must have occurred—many intervening formations being absent. It is now universally conceded, that, after the deposition of our Silurian (or Lower Palaeozoic) rocks, this part of Canada was elevated above the sea in which these rocks were deposited, and that it remained dry land for many ages, whilst the succeeding members of the Palaeozoic series, with the Secondary and Tertiary rocks (properly so called) were under process of deposition in the seas, lakes and estuaries, of other localities. Then, a movement of depression ensued, and our Province was again covered or partly covered by the waters of the ocean. It is also inferred from perfectly trustworthy data, that this period was one of comparative cold. Vast glaciers were formed in northern regions, from whence numerous icebergs, laden with earth and stones, drifted southwards; and gradually melting, or becoming stranded on shoals and islands, deposited their rocky freights over the sea bottom. By the agency of these floating icebergs also, the limestone ridges were broken down, and the calcareous sediments, thus formed, were mixed with the more northern deposits. Proofs of this are seen in the polished and striated surfaces of our limestone strata in many localities; in almost all places, indeed, in which a recent removal of the Drift has been effected. The polished rock, when first exposed, is sometimes as smooth as a mirror; and the fine lines which cross it, and which are supposed to have been produced by stones and gravel frozen in to the under side of the icebergs, have almost always a general north and south direction. The same effects of iceaction are seen also on most of the exposed gneissoid rocks in the northern part of the country. Finally, the ground must have been again slowly elevated above the

sea; and many of our valleys and other surface inequalities were then produced, by the action of waves and currents on the yielding materials of the Drift and underlying strata.

4. *Recent Deposits*: These are of very slight extent, and of local occurrence, only. They are due to causes now in action, or which have prevailed during comparatively recent periods. So far as regards the County of Hastings, they comprise a few beds of "shell marl," arising from deposits in swamps and partially dried up ponds and lakes. These consist of white and more or less earthy calcareous matter, filled with minute shells of *cyclas*, *planorbis*, and other fresh-water genera of molluscs. A deposit of this kind occurs on the high ground above the west bank of the Moira at Belleville; also in the vicinity of Trenton; and at other places. Another recent formation consists of "calcareous tufa" deposited on twigs, moss, stones, etc., in many streams and springs; but frequently, both shell marl and calcareous tufa occur intermixed, and form but one deposit. In addition to the above substances of recent origin, a few subordinate deposits of bog iron ore are said to occur within the limits of the County. Respecting these, however, we have obtained no certain knowledge."

#### ACCESS TO MARKETS.

We have already referred to the fact, that we have access by Water and Railway, to the Eastern and Western Markets. We have excellent facilities for communication by water, not only with the ports of the Province, but with those of the United States. The navigation of the Bay is perfectly convenient and secure, and free from those hazards, to which the Lakes are at times liable. Steam boats ply regularly between Trenton, Belleville and Montreal, Belleville and Kingston, and Belleville and Oswego, thereby affording a frequent, cheap, and comfortable means of conveyance, for the purpose of travelling and commerce.

#### CONCLUSION.

To the tourist we can exhibit a beautiful country, with scenery picturesque, grand and majestic. The sportsman can enjoy himself to his heart's content, for our Bays, Rivers and Lakes abound with Salmon, Trout, and other choice varieties of Fish, and our grand old forests with Deer and other game. To the emigrant who leaves the father-land to find a home in this new world, we offer as rich farming lands as are found in Canada upon the easiest terms imaginable. The miner will find rich minerals which will abundantly reward his skill and enterprise, and to the manufacturer we offer facilities for business unsurpassed in the country. The County is destined to become famous for its manufactures as for its agricultural products. Add to its already superior advantages the commerce of the Belleville and Marmora Railway, and with sunshine and rain, seed time and harvest to our hills and plains, no competition can prevent our presenting a worthy object of admiration and emulation,

ROBERT L. INNES, *Engineer.*

Two routes have been surveyed for this Road. By the first, the distance between the port of Belleville, and the Iron Works at Marmora, is  $32\frac{1}{2}$  miles. Estimated cost, \$600,000. By the second route, the distance is  $45\frac{1}{2}$  miles. Estimated cost, \$900,000.

Both routes are laid down on the Map, which accompanies this work.

## GRAMMAR SCHOOL.

The Senior County Grammar School is situated between St. Thomas' and St. Andrew's Church, East side of Church street, (immediately East of Court House). The school is managed by a Joint Board, composed of Eight Trustees, appointed by the County Council—and Six selected from the Common School Board. It is free to all children resident in Town, except those whose parents or guardians, are supporters of the Roman Catholic Schools. Fees for non-resident and Separate Schoolists, \$3 per quarter. Pupils residing beyond the limits of the Town, \$4 per quarter. The expense of the school is paid by a direct tax upon the Rate payers of the Town.

ALEXANDER BURDON, Head Master—Salary \$1,000 per annum.  
WILLIAM TILLEY, Assistant—Salary \$500.

## ITS SITUATION.

The Town of Belleville—the chief market place for the County of Hastings—is situated in the Township of Thurlow, at the mouth of the River Moira, and on the shores of the Bay of Quinte. It covers an area of 1,200 acres, and has a pleasant and healthy situation. The River Moira, a rapid stream varying in width from 40 to 100 feet, runs through the Town. With the aid of Sewers through the principal Streets, and the Town occupying a beautiful elevation of land, gradually inclined from the water on either side, but little difficulty is experienced in keeping the Streets free from filth and impurities. The principal business portion of the Town is on the east side of the River.

## THE STREETS.

*Front Street*, running in nearly a northerly and southerly direction, is the chief business thoroughfare. The great trade of the Town is principally carried on here, and many of the stores and buildings are of the finest class. On *Mill Street*, extending from the Upper Bridge to the Grand Trunk Station, are situated some of our most extensive Foundries, and Factories. *Pinnacle Street*, running parallel with *Front*, is well laid out, and will eventually become one of our principal business thoroughfares. The Market and the Court House front on this Street, and the Commercial and Montreal Banks, both imposing structures, are also located here. *Moira, Bridge, and Hotel Streets*, running in northerly and southerly directions, and other Streets, will grow in importance as the Town advances in wealth and commerce.

---

LOCATION OF PRIVATE RESIDENCES.

To the eastward, on what is commonly known as Taylor's Hill, are many elegant private residences, with tastefully and richly ornamented grounds. Indeed, the larger proportion of our merchants, our professional men and wealthy mechanics, have built their homes here, and surrounded them with every convenience and comfort which taste and wealth can command. Here are also most of our Churches, some of which are costly and imposing edifices. To the westward are beautiful slopes, which are adorned with handsome dwellings and tastefully arranged grounds, where men of business and toil find a quiet retreat.

For private residences, free from the bustle and noise of a business life, no more delightful locations could be desired than on the beautiful elevations of land to the east, west and north of the business portions of the Town. And within the past few years, many handsome and costly residences have been erected, surrounded with richly ornamented grounds, evidencing the taste and wealth of the owners.

## BUILDINGS.

The buildings are chiefly of stone and brick, and many of them present an imposing appearance. The Commercial and Montreal Bank buildings are costly structures, and are ornaments to the Town. The Court House, the Dafoe buildings, the English, Roman Catholic, Wesleyan Methodist, and Presbyterian Churches, and many of the blocks of buildings on Front Street, would be a credit to places of much larger growth. The Episcopal Methodist Seminary, on an elevation to the north of the Town, is a massive building, and presents a fine appearance.

## MANUFACTURES.

The Manufactures of Belleville have a degree of importance which few Towns or Cities in Canada can claim. Possessing one of the finest water privileges in the Province, and having access to foreign markets by railway and water, the inducements to invest capital in manufactures are by no means inconsiderable, and these privileges have been taken advantage of by men of wealth and enterprise, who are rapidly adding to their own wealth, and contributing largely to

the permanent prosperity of the Town. But these manufactures might be indefinitely increased. Excellent water privileges in the Town and in the immediate vicinity, lie idle, waiting for the movement of some enterprising capitalist to convert them into sources of wealth. Many new branches of business might be established and successfully prosecuted, for there can be no reason why we should continue to import cloths, cottons, and other goods, when these goods can be manufactured here equally as cheap, and equally as good as those imported. With a view to show the extent of our manufactures, we will briefly glance at a few of the more extensive establishments.

**PATTERSON'S IRON WORKS.**—R. & R. S. Patterson, Front Street. The business of this establishment is chiefly confined to the manufacture of Agricultural Implements, a branch of industry which a few years ago was unknown in this part of the country, but which has latterly assumed almost colossal proportions; and it is something to boast of, that this is the largest manufactory of the kind in Western Canada. Of the excellence, the durability, and the finish of their Implements, it is not necessary here to speak; the numerous prizes and diplomas awarded to them at Provincial and Local Fairs, sufficiently attest their superiority. Their Implements are found in every part of Canada, and the demand for them is yearly increasing.—Employment is given to from 40 to 50 men. Wages from \$360 to \$400 per week.

**BROWN'S FOUNDRY.**—Mill Street, G. & J. Brown. This establishment gives employment to from 40 to 45 men, and the weekly wages amount to about \$350. The business of this firm has been chiefly confined to Iron Work, embracing Steam Engines, Planing Machines, Ploughs, Stoves, Castings, Potash Kettles, &c., but within the last two years they have commenced manufacturing Agricultural Implements, and are preparing to go more extensively into this branch of business. Their manufactures have obtained numerous prizes at Local and Provincial Exhibitions, and find a ready market not only at home, but in various parts of the Province.

**VICTORIA FOUNDRY.**—B. Delong, Pinnacle Street. The buildings connected with this establishment cover a large extent of ground, and are fitted up with all kinds of machinery for the manufacture of Steam Engines, Mill Gearing, and other Iron Work, Agricultural

Implements, &c. Though but a short time in operation, the Implements manufactured here are of a superior quality, and have obtained prizes at the Montreal and Hamilton exhibitions. From 25 to 30 men are employed.

MOIRA FOUNDRY.—Charles Martin, near Flint & Yeomans'. From ten to twelve men are employed at this Foundry. The establishment is complete for the manufacture of Machine Work, Ploughs, Stoves, &c., which from the excellence of their quality, find a ready market.

HORAN FOUNDRY.—Corner of Dundas and Church Streets. Considerable business is done at this Foundry in Stoves and Ploughs, to which branches the business is chiefly confined.

LUMBER BUSINESS.—The amount of capital employed in this business is immense, and the trade has long been a source of prosperity to Belleville and the County. For the last few years the number of Saw Logs brought down the River, have averaged from 150,000 to 175,000 a year. These logs are manufactured into merchantable lumber at our Mills, of which we have two of the most extensive west of the Ottawa. The largest is that of

FLINT & YEOMANS.—At this Mill there are between 90 and 100 Saws, in different Gangs, capable of manufacturing from 75,000 to 100,000 feet of lumber every 24 hours. It is a grand sight to witness the movement of these Gang Saws. How they rive the great logs with their restless and indomitable teeth, splitting them into planks and boards that shall build up the palaces of commerce in our cities, and the quiet happy rural homes. Let the mind go back only a few years—look into the old weather-beaten mill with its one upright saw, and mark its sing-song motion. What a contrast! Here are a dozen sturdy operatives who are all activity—and gangs of saws that cut their tens of thousands feet per day. There a solitary sawyer, watching the snail-like movement of his daily and nightly companion, while he keeps time to the music with some familiar refrain; and he is satisfied if he counts a few hundred feet every 24 hours. To give an idea of the business done at Flint's Mill, we may state that when it is in full blast, a sufficient quantity of lumber is made to load a schooner every 24 hours. Employment is given to about 90 men, whose wages amount to \$500 a week.

**BOGART'S MILL.**—This establishment employs between 50 and 60 men, whose weekly wages average about \$350. There are several Gang Saws, numbering altogether 86 saws, which will turn out about 50,000 feet of lumber per day.

In addition to these Steam Saw Mills, there is one on Meyers' dam, owned by Mr. Bleecker, having 25 saws, one owned by Mr. James Canniff, a short distance above the Town, and two or three at Canifton.

**OTHER MANUFACTURES.**—There are other branches of manufacture established at different points on the River, which contribute largely to the prosperity of the Town.

We have three Sash and Blind Factories, carried on respectively by Messrs. I. W. Payne, Nelson Pringle, and A. Diamond, giving employment to from fifteen to twenty men.

There are two Pail and Tub Factories, owned by Mr. Aaron Dame, and Mr. Joseph Bullen; the latter is also extensively engaged in the manufacture of Washboards, which are finding a good market in the chief cities of the Province.

We have two Axe and Edge Tool Factories, which do a large business. They are carried on by Mr. Burrell, and Mr. Proctor.

Mr. A. A. Campbell does a very extensive business at his Tannery, which is one of the largest in Western Canada. He employs from fifteen to twenty men.

The manufacture of Hammers and Forks is extensively carried on by Mr. V. J. Warren, and on the same premises, the firm of John Eaton & Co., are extensively engaged in the manufacture of Hinges, of all sizes and descriptions.

Of Flouring Mills we have three, carried on respectively by Mr. Jas. Canniff, Mr. William Ross, and Mr. James Wallace.

Mr. Seth Wheadon, and Mr. J. L. Reed, are largely engaged in the manufacture of Satinets, Tweeds, &c., and there is a Wool Carding and Cloth Dressing Factory, carried on by Mr. S. Ostrom.

Just outside the limits of the Town, on Canniff's dam, there is a Paper Mill, carried on by Mr. P. F. Canniff. A large business is done at this establishment.

Besides the foregoing there are a Soap and Candle Factory, and a Potashery, owned by Mr. J. A. Phippen ; a Lard Factory, and several other branches of industry successfully prosecuted.

In addition to Cabinet and Chair Factories, Breweries, &c., we have in operation over thirty Factories, which give employment to between five and six hundred men, whose wages amount to \$4,000 a week.

Manufactures in Canada may yet be said to be in their infancy, but under an enlightened protective system, we may expect within a few years to be able successfully to compete with the manufacturers of England and America. There are many excellent openings in the Province for the investment of capital in manufacturing operations, but we know of no place where better manufacturing facilities exist, or where there is a more certain prospect of a remunerative return, than in Belleville and vicinity. Capitalists who wish to invest their means, should visit Belleville, and examine the advantages we have over other localities.

#### CONNECTED WITH PRINCE EDWARD.

Besides being the natural outlet of one of the finest Agricultural and Mineral Counties in Canada, Belleville is connected with the County of Prince Edward, with which it does an extensive trade — a trade which is yearly increasing, and which will grow in importance as the facilities of communication are increased. The Ferry steamer which now connects the two places, will soon be inadequate to do the business which every year is becoming more and more important.

#### FREE ROADS.

A wise enactment of the Municipal Corporation of Hastings has thrown open all the public roads of the County, over 150 miles in length, and that great nuisance to the farmer and traveler—the toll-gate—has been removed. The result of this enactment will be to greatly increase the trade of Belleville. The roads are in excellent condition, and being the property of the County, will be kept in good repair.

## RAILWAY AND STEAMBOAT COMMUNICATION.

Belleville is connected with the chief markets of the Province and the United States, by railway and water, and our facilities for exporting and importing are fully equal to those of the principal ports of the Province. The projected Railway from Belleville to the interior of the County and to Marmora, where are inexhaustible mines of iron ore, marble, &c., will shortly be built, and when completed, it will aid materially in developing the resources of the County—it will give an impetus to all kinds of business, and be the means of building up other manufacturing establishments.

## EDUCATIONAL ADVANTAGES.

The educational advantages we possess are nearly if not quite equal to the most favored localities of the Province. The System upon which the Grammar and Common Schools is conducted, is Free, so that the poorest child amongst us may obtain a thorough English, Commercial, and Classical education. Our School Houses are neat, substantial buildings, and well ventilated—and the Teachers are experienced and competent. Besides our Common and Grammar Schools, there is the Episcopal Methodist College, one of the largest Educational Institutions in the Province, where a thorough collegiate education may be obtained. It has a very efficient staff of Professors and Teachers.

## STATISTICAL INFORMATION.

At the time of its incorporation in 1836, Belleville had a population of about 1,000; the number of inhabitants is now variously estimated at from six to seven thousand, the latter number being probably nearer the mark. The following is a comparative return of the Imports and Exports of Belleville, for the four years, ending 1859:

## WHAT WE MAY EXPECT.

No one who has paid any attention to the geographical position of Belleville, who has made an examination of the natural advantages it possesses for manufactures, who has contemplated the boundless wealth of the country of which it is the natural outlet, but must predict for it a prosperous future. No one will question but that it possesses the inherent power to become commercially great and prosperous, and no one who has watched its progress for the past twenty years, but will admit that it is destined to become one of the chief manufacturing cities in Canada. We have a fine, healthy situation, well-laid out streets, access by water and railway to all parts of Canada and the United States, unlimited manufacturing resources, inexhaustible mines of wealth in the interior, which will flow out at this natural outlet, surrounded by a good agricultural country, and having excellent gravelled and macadamized Roads to all parts of the county, nothing can prevent our become a flourishing and important city.

# LOCAL INFORMATION.

## TOWN GOVERNMENT.

Belleville was incorporated a Town in 1836. It is divided into four Wards, which are bounded as follows :

*Baldwin Ward* is bounded on the North by the River Moira, on the East by the Town limits, on the South by Bridge Street, and on the West by Pinnacle Street.

*Coleman Ward* consists of all that part of the Town lying West and North of the River Moira.

*Ketcheson Ward* is bounded on the North and West by the River Moira, on the East by Pinnacle Street, and on the South by Bridge Street.

*Samson Ward* comprises all that part of the Town South of Bridge Street, on the East side of the River Moira.

A SYNOPSIS  
OF THE  
BY-LAWS OF BELLEVILLE.

---

FIRES AND FIRE COMPANIES.

BY-LAW NO. 1.

2. Enacts that every person between the ages of fifteen and sixty years is required to assist at fires, at the request of officers of Fire Companies, members of the Corporation and Constables.

12. All Carters are obliged to draw water to fires.

13. Sextons of each Church having a bell, are required to ring the bell for fifteen minutes, upon the breaking out of a fire.

16. Any officer appointed by the Town may search any premises where there is reason to believe there is anything hazardous or dangerous in causing fires ; shall notify owners or occupiers to have such nuisance removed, and if not done in six hours, a penalty is incurred ; in case it is not abated within 24 hours, the officer may cause its removal.

17. Stove pipes not passing through stones, earthen pots, or pipe cylinders, must be kept six inches from any part of the wood of the partition, and at least six inches from the ceiling.

18. Stove pipes not to be carried through a window, or side or end of a building.

19. Stove pipes passing through the roof of a building to be secured in a brick flue, built from the garret floor, and three feet above the roof.

20. Pipe holes not in use must be kept closed, and fire-boards must be covered with tin or iron.

21. Stoves must be nine inches from any wooden partition, unless such partition be protected by tin.

22. Blacksmith's shops within four rods of any other building, shall have a return flue in the chimney.

23. Persons must not carry lighted coals through streets unless in a covered vessel of iron.

24. Provision must be made by every occupier of a house for a safe receptacle of ashes ; a person keeping ashes in boxes or in any wooden material in his tenement, is liable to the penalty imposed by this By-Law.

25. Persons not allowed to carry a lighted candle into a stable unless enclosed in a lantern.

26. No person shall have in his possession a lighted pipe or cigar in any mill, or workshop, wherein are combustible materials, or in any stable or barn.

27. Persons requiring to burn chips, straw, &c., shall do so on a damp day, when there is no wind, and at least 20 feet from any building or vessel.

29. Buildings of two storeys or more to have a scuttle on the roof, and a staircase or ladder leading to the same from the inside. Penalty : \$1 for every three days such building is unprovided with such conveniences.

30. Every building not more than two storeys high, must be provided with a ladder from the ground three feet above the eaves of the building, and one from the eaves to the ridge of the roof.

31. The Mayor and any two members of the Council have power to destroy a building for the purpose of retarding a fire.

32. Provides for the appointment of a Chimney Viewer, who when called upon, shall cause to be swept the chimneys of such persons who desire it, for which he will be entitled to the following rates :

For sweeping a chimney not exceeding in height a ground floor and a garret, 6d ; each additional flue, 3d.

For sweeping a chimney not exceeding in height two floors, and a garret, 9d ; each additional flue, 3d.

For sweeping a chimney not exceeding in height three floors and a garret, 1s ; each additional flue, 4d.

For sweeping a chimney higher than is named above, 1s 3d ; each additional flue, 6d.

33. The Chimney Viewer shall call upon every occupier of a house once in six months, and tender his services to have the chimney swept.

35. No person to sweep chimneys unless under the direction of the Chimney Viewer.

36. No person shall in any way hinder such Chimney Viewer or his servants in the discharge of their duties.

#### BY-LAW NO. 91.

1. The Town Council shall appoint the Chief Engineer and the Assistant Engineer of the Fire Department, from such persons as may be nominated by a majority of the members of any Fire Company or Companies.

4. Any Company of Active or Volunteer Militia Force offering their services as a Fire Company, shall be held to be a Fire Company, and the officers of such Company shall have similar powers as the selected officers of any Fire Company.

5. Monthly returns of the condition of the Fire Department to be made to the Council.

6. Each fireman to receive not exceeding \$6 per annum, by resolution of the Council.

## NUISANCES.

### BY-LAW NO. 2.

1. Persons depositing building material on any public ground, upon being notified to remove it by the Street Surveyor, or any member of the Town Council, shall do so within 24 hours; provided it be not required for immediate use, and then the space occupied by such material shall not be more than half the width of the street opposite the building site.

2. Persons not allowed to deposit or encumber any street or public ground with any article except for the purpose of immediate removal.

3. Carriages, hand carts or barrows, not permitted to stand on any footpath or crossing, so as to incommode travelers.

3. No person shall hinder or obstruct Constables in the performance of their duty.

---

IMPOUNDING CATTLE, &c.

## BY-LAW NO. 5.

1. Provides for the appointment of two Pound Keepers, one for that part of the Town east of the River Moira, and the other for that part west of the river, who shall provide a suitable place for a pound.

2. Pound Keepers to impound all horses, cattle, sheep and swine, that may be running at large, or that shall trespass upon the land or premises of any person, (being enclosed by a lawful fence) and detain them until all fees and damages are paid. Pound Keepers shall be allowed over and above any claim for damages and the penalty : for every horse or head of cattle, 1s 3d ; every hog, 1s 3d ; every sheep, 3d. They shall be allowed for posting the requisite notice, 1s ; for attending for the appointment and serving copies of the same upon the appraisers, 2s ; and for the sale of every distress, 1s 3d. They shall be obliged to provide the necessary food and drink for the animals impounded, for which they are entitled to charge the following rates : for every horse, 1s 3d per day ; for every head of cattle, 1s per day ; for every sheep and hog, 6d per day, each : which several sums shall go to the Pound Keepers for their fees.

5. Pound Keepers shall within 48 hours, and not before 24 hours, after the distress shall have been impounded, cause a notice thereof in writing to be posted on the Pound gates, and in three other public places in the Town, giving description of the distress, and specifying when and where the same shall be exposed for sale, and in case the owner does not redeem the same, by paying all fees and claims within eight days after such notice is given, the Pound Keeper may proceed and sell the distress to the highest bidder ; after deducting his own legal charges, they shall pay the damages, if any, to the person entitled thereto, and the penalty, one-half to the person taking such distress to the Pound, and the other half to the Town Treasurer for town purposes ; and the overplus, if any, to the owner of such distress, if known, and if not known, to the Treasurer ; and if not claimed within 3 months, to be applied to Town purposes.

6. A person taking animals to the Pound, obliged to state what demands he may have for damages, and in case the owner tender to the Pound Keeper the sum which may afterwards be awarded, with the costs incurred, he shall not be liable for costs afterwards incurred, but all such subsequent costs shall be paid by the party claiming extravagant damages.

7. In case the owner objects to the damages claimed, the Pound Keeper shall apply to the Mayor or any Councillor, who shall appoint three disinterested persons to appraise the damages.

8. Pound Keepers to give notice to the Clerk of the Council

immediately after the impounding of any animals, with the name of the person who delivered the same to the Pound, and the amount claimed for damages.

9. Owners of animals impounded, to pay the following penalties : for every stallion, \$4 ; for every mare or gelding, 50 cents ; for every ox, 50 cents ; for every sheep,  $12\frac{1}{2}$  cents ; and for every hog, 25 cents.

11. Pound Keepers to make quarterly returns to the Clerk of the Council.

12. Provides that in case Pound Keepers make any unlawful charges, they may be fined or suspended from office.

## ENCROACHING ON STREETS.

### BY-LAW NO. 15.

2. Provides that the Town Surveyor shall give the lineation of lots situated in front of streets, squares or other public ways, whenever called upon, for which he is entitled to receive three pence per foot, for every foot frontage ; and no person shall erect, re-build, or enlarge any house, building or wall upon the front of streets, squares, or other public ways, without having first obtained the lineation of the same from the Street Surveyor.

---

## ERECTION OF WOODEN BUILDINGS.

### BY-LAW NO. 17.

2. Provides that any person erecting a building within certain limits, (described in By-Law number eighty-six,) which shall be adjacent to any other house or building, shall build a guard and substantial party wall of brick or stone, on the side adjoining any other building, which wall shall be not less than 12 inches thick, if of brick, and not less than 16 inches thick, if of stone, and be terminated at the top by a fire-guard wall of the same thickness, with proper coping and raisings not less than 18 inches above the roof ; provided that if such description of wall be previously standing in the adjoining house, then the person erecting such new house, shall not be required to make a second wall.

3. No Blacksmith shop shall be erected within the limits of the Town, (?) including the west side of Front Street to the bank of the river, of any other material than brick or stone, and the ceiling thereof to be plastered ; nor shall any chimney be built in such Blacksmith shop that is not constructed according to the self-consuming principle.

## BY-LAW NO. 86.

2. Provides that no building hereafter erected fronting on Front Street or on Pinnacle Street, from Dundas Street to the River Moira, or on Bridge or Hotel Streets, from Pinnacle Street to the River Moira, shall be of a less height than one and a half storeys, and that all the chimneys or flues in such buildings shall be of brick or stone, and be properly carried up from the ground.

PUBLIC HEALTH.

## BY-LAW NO. 53.

1. Board of Health to have power to enforce the laws of the Province against infectious and pestilential diseases.

2. During the existence of any epidemical disease, or upon a probable approach thereof, power is given to open a hospital at the public expense.

3. Gives power to the Board of Health to employ Physicians and to procure nourishment and necessaries for the use of the sick.

5. Keepers of Public Houses, Hotels and Boarding Houses, are required to report the number of persons sick, the nature of the disease, all deaths and causes, and to enforce such regulations as the Board may think proper.

## BY-LAW NO. 63.

1. Enacts that the Health Committee or any two of them, or any officer appointed by the Committee, may enter upon and examine any premises within the Town, and if they find those premises in an unclean or filthy state, or any matter existing thereon which might endanger the public health, they shall direct the occupant or proprietor to cleanse the same and remove all offensive matter; and in case parties refuse or neglect to comply with such order, then the Health Committee or officer may call in any assistance necessary to have the premises cleansed, and remove or destroy anything that might be necessary for the preservation of the public health.

2. In case where a malignant disease exists in any dwelling situated in a crowded part of the Town, or in a neglected or filthy state, or inhabited by too many persons, the Health Officers may compel the inhabitants of such dwelling, at the cost of the Town, to remove therefrom, and place them in sheds or tents, until such dwelling is properly cleansed, ventilated and purified.

3. Any person resisting or obstructing the Health Officers in the discharge of their duty, liable to a fine of \$20.

5. Graves to be five feet in depth, and no more than one body interred in one grave.

6. Health Officers have power to employ surgeons.

7. Persons must not allow stagnant water to remain on their premises.

8. Privies must be at least eight feet deep, five feet from the boundary side line of the lot, and not less than fifty feet from any street; in case the lot will not admit of the privy being placed 50 feet from the street, then it shall be placed as the Health Officers shall direct.

9. No feculent matter, filth or rubbish whatever, or any foul or corrupted water or liquors inhaling fetid odors, allowed to be deposited in any street, lot, gutter, or on any pavement, or bank of the river, or in any public place.

10. No animal shall be slaughtered within 100 yards of any inhabited dwelling, nor shall any green hides be exposed to dry within said limits.

5th. That a Clerk of the Market shall be appointed, (and Daniel Ackerill is hereby appointed Clerk) to serve during the pleasure of the Council, whose duty it shall be under the control and superintendence of the Market Committee appointed by the Council, to have the care and snperintendence of the market and market place, and it shall be his duty to execute and enforce all regulations, orders and By-Laws, for the government of the same respectively, and all orders of the said Committee not inconsistent with or repugnant to the said regulations, orders or By-Laws, and the Market Clerk may, by the

advice and with the consent of the said Market Committee, engage the services of an assistant at such wages as may be agreed upon, and such assistant shall have and exercise all the powers, and assist in the performance of all the duties of Market Clerk, under the directions and subject to the control of the Market Clerk, and also subject to dismissal at any time by the Market Clerk or by the Market Committee, and the word Clerk, or Market Clerk, wherever the same shall occur in any of the following clauses, shall be construed and taken to mean, the Market Clerk, the assistant Market Clerk, and any person temporarily employed to perform the duties of Market Clerk.

6th. That it shall be the duty of the Market Clerk to open and close the said market at the hours appointed, and to attend at the market constantly during market hours, unless prevented by sickness or unavoidable accident, in which case the Market Committee may appoint a person to discharge the duties of said Clerk.

7th. That it shall not be lawful for the said Clerk of the market to trade directly or indirectly, or have any direct or indirect interest in the sales or profits of any articles or animals, which shall be brought to or exposed for sale in the said market, or to purchase any such for or on behalf of others.

8th. That no person shall buy, sell or offer for sale, any meat, game, fish, poultry, eggs, butter, cheese, grain, hay, vegetables, or fruit, exposed for sale, or marketed in the open air within the Town of Belleville, at any place excepting at the public market place, except as may be hereinafter provided; and no person shall forestall any grain or hay, or forestall or monopolize any meat, game, fish, poultry, eggs, butter, cheese, vegetables, or fruit brought to the said market; nor shall any of the before mentioned articles be inspected, bought, bargained for, sold or offered for sale, by any person until the seller has taken up his place on the market, or has obtained a ticket from the Clerk of the market, as provided for by the 24th

section of this By-Law, provided always that at any hour of the day, any pork in carcase, and after the hour of 11 o'clock in the forenoon in the months of January, February, March, April, September, October, November, and December, and after the hour of 10 o'clock in the forenoon, in the months of May, June, July, and August, any butter, and after the hour of 12 o'clock noon, any meat in carcase or by the quarter, and any game, fish, poultry, eggs, cheese, grain, hay, vegetables, or fruit, that have been brought to the market, the market fees thereon, or on the vehicle containing the same, paid, and a ticket obtained therefor, may be bought or sold by any person in any part of the Town; and provided further that before the hour of 11 o'clock in the forenoon in the months of January, February, March, April, September, October, November, and December, and before the hour of ten o'clock in the forenoon, in the months of May, June, July, and August, no person shall regrate or buy for the purpose of selling again, or for export, any meat, game, fish, poultry, eggs, butter, cheese, vegetables or fruit so brought to the market.

9th. That no person or persons but butchers shall sell any meat in less quantity than by the quarter, and butchers shall not expose any meat for sale at any other place than in the market stalls.

10th. That all stalls in the market shall be numbered in the manner determined by the Market Committee.

11th. That each butcher shall have his name painted in full on a board of uniform breadth and placed over his stall.

12th. That the butchers' stalls in the market shall be let annually on the third Monday of December by public auction, to the highest responsible bidder, above any upset price to be affixed by the Market Committee previous to such sale; possession to be given on the first day of January following; and the person or persons leasing the said stalls shall pay the rent thereof in equal weekly pay-

ments, which shall be payable to the Market Clerk weekly in advance, and immediately after the stalls have been awarded each of the parties to whom they have been awarded shall before entering into possession, enter into bonds to the Corporation, themselves in the sum of \$100, each, and each with two sufficient sureties in the sum of \$50 each, which bonds shall be conditioned for the due payment of rent, and compliance on the part of such Lessee, with all By-Laws, Rules or Regulations established, or that may be established for the government of the market, and that the stalls shall not be sublet to, nor occupied by any other person without the written consent of the Chairman of the Market Committee; provided always that the Market Committee shall have the power of letting the stalls privately, if by so doing justice be done and the interest of the Town subserved.

13th. That no butcher shall sell or expose for sale in his stall, or allow to be sold or exposed in the same, any other article than meat and poultry; and it shall be the duty of each butcher to keep his stall in a clean and sweet state; and no butcher or other person shall allow hides, skins, or any offal to remain in or about the market after market hours; and no butcher or other person shall bleed any animal, in or on the market, or on any street adjacent thereto; and no butcher or other person shall harbor or keep any dog in or about the market.

14th. That all butcher's meat that shall or may be offered for sale or disposed of in the market by any other than a lessee or occupant of a butcher's stall in the market, shall be subject to the following charges in addition to the charge on each wagon, sleigh or vehicle, in which the same may be brought, namely:

For every quarter of Beef,.....12½ cts.

For every quarter of Veal, Mutton or Lamb,..... 3 cts.

And for every carcase or part of a carcase not less than  
a quarter, of Pork not exceeding 100 lbs in

weight, ..... 5 cts.

And exceeding 100 lbs in weight,.....10 cts.

Provided always that such additional charges shall not be

required to be paid by any farmer or other person offering for sale the above enumerated articles when the same shall be actually raised or produced by such person on his or her farm or place, or shall have been the property and in the actual possession of such person not less than six months.

15th. That every person bringing any of the aforesaid articles or any live animals to market for sale, shall pay the Clerk of the market before offering the same for sale, the following fees for the use of the Town :

If in a wagon, cart, sleigh, or other vehicle, drawn by one or more draught animals,.....	5 cts.
If in a hand cart,.....	2 cts.

For every horse, mare, or gelding, brought for sale,...	5 cts.
For every head of cattle, brought for sale,.....	2 cts.
For every sheep, calf, or pig, if not in a wagon or other vehicle, .....	1 ct.

Parties bringing provisions for sale or otherwise, must take as many feet frontage as may be requisite for the sale of such provisions, and pay for the same two cents per foot frontage per day. For permission to occupy a permanent stand in addition to other charges, per quarter, one dollar and a half. And that all parties getting articles weighed or measured by the Market Clerk, shall pay for such weighing or measuring the following charges :

For weighing every draught on hay scales, .....	20 cts.
For weighing every draught on market scales, under 100 lbs.,.....	1 ct.
For weighing every draught on market scales, from 100 to 200 lbs.,.....	2 cts.
For every additional 100 lbs., .....	$\frac{1}{2}$ ct.

Provided that no charge shall be made for weighing the vehicle in which hay, straw, or any other article has been weighed on the hay scales, and the 20 cents to include all market fees. Any person neglecting or refusing to pay the aforesaid fees shall be subject to the penalties hereinafter mentioned.

16th. That no person shall bring to market, or expose or offer for sale in any part of the Town, any tainted, or unwholesome meat, poultry, fish, or other articles of food.

17th. That no person shall sell hay within the Town weighed at any other place than at the Town hay scales, nor shall offer with such hay any Weight Ticket or Certificate, signed or purported to be signed by any other person than the Market Clerk.

18th. That the said Clerk shall deliver to every person having a load of hay or other articles weighed by him on the hay scales, a Certificate of the weight.

19th. That the Clerk shall cause the passages and halls in and around the Town Hall and Market House, to be swept daily, and shall level the snow around the Market House in winter.

20th. It shall be the duty of the Clerk of the market to keep open the Weigh House on every market day during market hours, and the scales, weights and measures, and everything connected with the said Weigh House, shall be maintained in a clean and orderly manner, and the Clerk shall weigh or measure the different articles that are sold or disposed of in the market, whenever he shall be thereunto required by the parties interested therein, or either of them.

21st. That all wagons or other vehicles shall be placed in such place and order on the market grounds, as the Clerk of the Market shall direct, and he shall have power to enforce the removal of every wagon or vehicle from the market grounds, as soon as the produce contained therein shall have been sold.

22nd. That the Clerk shall attend to the scales for weighing hay, on every Market day, during Market hours.

23rd. That the Clerk of the Market shall keep a book containing duplicates of the weights of the several loads of hay or other articles weighed on the Hay Scales by him, which book shall at all times be open for inspection by all parties interested in the weight of any such load or draught and before any certificate is granted, the fees must be paid thereon.

24th. That the Clerk of the Market, shall give every

person getting a draft weighed on the hay scales, or bringing grain or other articles or animals to market, upon the fee being paid thereon, a ticket marked with the day of the month, the article or articles weighed or to be sold and the name of the Clerk, which the seller shall show to every person purchasing from him when required so to do.

25th. That no person shall have or use on the public market place, any fraudulent or unstamped scale, beam, balance, weight or measure, nor shall any person sell or offer for sale, any article or thing, as of or for a greater weight or measure than the same may actually be; and any purchasers who shall suspect any fraudulent dealing, or deem themselves wronged in the weight or measurement of any articles bought by them in the market, may demand to have such articles measured or weighed by the Market Clerk, and in case the articles so measured or weighed be found correct, the purchaser shall pay the charges of re-measuring, or re-weighing; but if otherwise, such charges shall be paid by the seller, besides the penalty imposed.

26th. That no person having scales and weights for their own use in the market, shall weigh or suffer to be weighed with such scales and weights any article whatever for other individuals.

27th. Assistant Clerk to pay to Market Clerk all moneys as received; Market Clerk to pay all moneys received by him to Treasurer, on the first day of each week.

28th. That it shall be the duty of all constables and officers in the employment of the Town, to see this By-Law duly enforced, and to prosecute to conviction before the proper authorities all persons offending against the same, and it is hereby made the duty of the Market Clerk, (or any other person having authority from the Town Council) daily to inspect the meat offered for sale in the market, and to cause to be seized, removed, or destroyed, everything that is spoiled, tainted, or unfit for use.

29th. Penalty: not less than \$1, nor more than \$20; in default, not less than 2 days in gaol, nor more than 20 days.

ADDRESS.—To the Honorable the Legislative Assembly of Canada, in Provincial Parliament assembled.

The Petition of ———

Humbly sheweth,                      That, &c.

 No Petition to the Legislative Assembly will be received unless there be three genuine signatures on the sheet of paper or parchment on which the conclusion of the Petition is written or printed. The usage has been, in the Legislative Assembly, to receive *only written* Petitions, but at a late session (1853), the Assembly adopted a resolution to receive *printed* Petitions in that House. All Petitions must be dated.

## POST OFFICE DEPARTMENT.

The charge for Registering letters, in addition to the postage is as follows, on each letter: To any place in British North America, 2 cents. To any place in the United States, (postage must be prepaid also) 5 cents. To any place in Great Britain and Ireland, (postage must be prepaid also) 12½ cents. To any place in the British Colonies or Possessions, France or other Foreign countries, sent *via* England, an amount equal to postage.

PARCELS up to 3 lbs weight can be sent by post under regulations at 25 cents per lb, to be prepaid by postage stamps, and may be registered by payment of 3d additional.

On Books and printed matter for the United States, the Canadian postage must be prepaid by postage stamps, and on such matter from the United States, the Canadian postage will be collected on delivery.

All transient Newspapers, including those for England, must be prepaid by postage stamp or they cannot be forwarded.

Canadian Newspapers addressed from the office of publication to subscribers out of the Province—such as to the United Kingdom, to the United States, Lower Provinces, &c., may be forwarded on prepayment of the commuted rate applicable to subscribers within the Province, or singly at ½ a cent each, at the option of the publisher; but they cannot be forwarded if posted unpaid.

The postage rate on letters between any two places in Canada, is 5 cents; in case a letter is not prepaid, 7 cents is charged.

From Canada to United States, 10 cents.—Prepayment optional.

From Canada to California, 15 cents.—Prepayment optional.

From Canada to Oregon, 15 cents.—Prepayment optional.

Newspapers for the British West Indies, 5 cents; Newfoundland, 3 cents; and for India and Australia, 5 cents.

Two Ocean Steamers carrying Mails for Canada, leave Liverpool in each week during Summer, viz.:

A Canadian Packet on every Wednesday, sailing direct to Quebec, by which the postage rate is 6d sterling per ½ oz., and a British Cunard Packet on every Saturday, landing Mails alternately at Boston and New York, by which the postage rate to Canada is 8d sterling per ½ oz.

As regards letters going from Canada to the United Kingdom,—in order to pass at the 6d rate—they must be posted on the proper days for the Canadian Packet Mails, or bear the words "*By Canadian Packet.*"

All letters to or from the United Kingdom should be prepaid.—Letters posted unpaid will be forwarded, but they will be chargeable on delivery with a fine of 6d sterling each, in addition to the postage.

## ELZEVIR.

---

This Township, although only two years old as an independent Corporation, is very prosperous. It is situated in the North Riding, and is bounded on the north by Grimsthorpe, on the east by Kaladar, on the south by Hungerford, and on the west by Madoc. The Township is rapidly settling by an hardy, industrious population; the immense pineries with which it abounded are rapidly disappearing, like the forest children that were fostered beneath their boughs, and good houses and barns and well-cultivated farms have taken their place. This has been an excellent lumbering district, and considerable is still being done in this branch of business. The River Scoutamatta in the eastern part of the Township, Black Creek in the Western extremity, and the Little Scoot more in the centre, tributaries of the Moira, furnish ample facilities for bringing the lumber to market. When they are no longer needed to float down the timber they will supply the power to drive Mills and Factories. Already we see springing up as if by magic, important villages on these mill privileges.

Bridgewater, five years ago comparatively a wilderness, now has some fifty or sixty buildings, and numbers over 200 inhabitants. It is chiefly the property of Billa Flint, Esq., under whose encouraging hand it has sprung into existence and prospered. This gentleman has erected here the largest Flouring Mill in the County, and surpassed by few in Canada. It has five run of stone; and connected with it are Oat and Barley Mills, all having the latest and most improved description of machinery. He has also a large Saw Mill, and on the same privileges factories of different kinds are about to be erected. Bridgewater is pleasantly situated, and bids fair to become a place of considerable importance. The Township Hall, a fine building, is located here. Distant from Belleville 28 miles.

Queensboro', nearer the western extremity of the Township, is a small collection of houses, having the reputation of a village from the Flouring and Saw Mills there owned and worked by Mr. Thompson.

The best of white marble, pronounced to be as good as the Vermont marble, is found in great abundance in different parts of the Township. Population, about 1,500.

TOWNSHIP COUNCIL, 1860.—Billa Flint, *Reeve*; James Comer, John J. Rhodes, Robert Barry, Job Lingham.

TOWNSHIP OFFICERS.—James Mairs, *Clerk*; Michael Langley, *Treasurer*.

DIVISION COURT.—Office, Bridgewater, John L. Macdonald, Clerk.

BAILIFF.—J. N. Hicks.

There is a Society of Good Templars at Bridgewater in a flourishing condition, numbering some 80 members. Religious services are held at Bridgewater, Queensboro' and at other points in the Township by members of different religious denominations. Within the Township there are seven school sections, four of which are in operation.

## FRANKFORD.

---

The village of Frankford is a police village, connected with the township of Sidney, and is pleasantly situated on the River Trent. It is distant from Belleville 14 miles, and from Trenton 7 miles. Population about 700. It has a number of mills and factories, which are supplied with water from Cole Creek, a tributary of the Trent. On this stream is a flouring mill, two saw mills, belonging to the Messrs. Roblin, the woolen factory of Messrs. Williams & Huffman, capable of making 120 yards of cloth per day; tanneries, &c. There is a distillery carried on by Mr. Turley; a pump factory, carriage, cabinet and coopers' shops, and a number of merchants' shops. The village can boast of having one of the finest school-houses in the country. It is a substantial stone building 34 by 54 feet. There are three very handsome churches, with spires, two of brick and one of stone, belonging respectively to the Wesleyan Methodists, Episcopal Methodists, and the Roman Catholics. Frankford is a thriving and prosperous village and from its situation must continue to advance in population and wealth.

## HASTINGS.

---

Hastings village, is situated in the Township of Madoc, about 28 miles from Belleville. Being the natural outlet of the Hastings Road, and surrounded by a good agricultural country, its business operations are very extensive, and are gradually growing in extent and importance. It possesses some well-finished and well-furnished stores, a Grist and Saw Mill, Tanneries, Carriage and Cabinet Shops, and mechanics of different kinds. The Mills are supplied with water from the Deer River, a small stream which runs through the village, and which is a tributary of the Moira. The inhabitants are industrious, enterprising and generally wealthy, and from the location of the village, being the outlet of the Hastings Road, which is rapidly filling up with settlers, and being the point from whence a large proportion of the supplies are obtained for the immense lumbering districts in the back country on the Upper Ottawa, it is destined to become a place of considerable importance. Hastings has four Churches :—Presbyterian, Wesleyan and Episcopal Methodist, and Roman Catholic. There is one large public school, conducted on the Free system. The village has a Mechanics' Institute in a flourishing condition, a Chess Club, two Cricket Clubs, and a Fire Company with the necessary apparatus. It is connected with Belleville by a daily mail. Population about 800.

# HUNGERFORD.

---

This township is the largest in the County of Hastings, and contains 546 lots of land, in farms of 200 acres each, equal to 109,200 acres, a very large portion of which is well adapted for the purpose of raising grain. It is a well-watered township; lakes, rivers and rivulets abound in every direction. The growth of this township in population and wealth has been most rapid, and in travelling through it, you will find yourself frequently doubting whether you are in the front or rear townships; large clearances, immense barns, neat and comfortable dwellings, are to be seen in every direction. The Moira runs through this township and divides it east and west.

TWEED.—Is the name of the principal village in this township. It is pleasantly and very favorably situated; having excellent water power privileges, and surrounded by a rich agricultural country, it will eventually become a place of considerable importance. All it wants is energy and enterprise, to make it a prosperous town. It has several stores, a flouring and saw mill, a woolen factory, tin, carriage, and blacksmith shops, &c., &c. The population of the village is from four to five hundred.

Adjoining Tweed is a small village called *Georgetown*, the property of Felix Gabourie, Esq. At this place is located the Town Hall of Hungerford.

The population of the Township in 1839 was 646, at the last census it was 3,124, and its present population is about 5,169. The Statistics of the Township are:—

# HUNTINGDON.

---

The Township of Huntingdon is situated in the North Riding of the County, and is bounded on the north by Madoc, on the south by Thurlow, and on the east by Hungerford, and on the west by Rawdon. Within the past few years it has rapidly advanced in population and wealth. And although there are no decided localities where villages have grown up, the wants of the inhabitants are supplied by several mercantile establishments, flouring and saw mills, &c., &c. The soil is generally fertile and in most part of the Township in a good state of cultivation. The population in 1839 was only 690 ; at the last census it was 2,548 ; and is now about 3,400. To show the progress during the last twenty years, the following statistics are appended :

## LAKE.

---

This Township is in the rear of Marmora, with which it is connected for Municipal purposes. It is filling up with an industrious population, and will doubtless in a few years be erected into a separate Municipality.

# MADOC.

The Township of Madoc—to which were formerly united Elzevir and Tudor, both of which are now separate Municipalities—is one of the best Townships in the County. It is bounded on the north by Tudor, on the east by Elzevir, on the south by Huntingdon, and on the west by Marmora. In addition to being a good Agricultural County, Madoc possesses some most valuable beds of minerals. The Iron Ore of Madoc has been pronounced by the highest authority not inferior to any in the world, but the mines have not yet been worked to any extent. The clearings and settlements in this Township are really astonishing. Although in the third tier of Townships from the front, its progress is quite equal to any Township in the County. Mr. Uriah Seymour, who owns the Iron Works in the vicinity of the village of Hastings, does not despair of again bringing them into successful operation. In addition to these mines, there are some very rich lead mines, as well as large and valuable quarries of marble and lithographic stone. Soap Stone is to be obtained in abundance, and other material valuable in the construction of furnaces. The population of the Township in 1839 was 766; it is now about 3,400. Its statistics are as follows:—

## MARMORA.

---

The Township of Marmora is situated in the North Riding, and is bounded on the north by Lake, on the east by Madoc, on the south by Rawdon, and on the west by Belmont in the County of Northumberland. This Township attracted early attention from the immense deposits of Iron Ore found within its borders. Works were established on a large scale by Mr. Hays, who had been accustomed to manage a similar business in the King's Dockyards in England. A large amount of money was expended, but little or no judgment was exercised. The roads to market were in nearly an impassable condition, which together with bad management, brought ruin to the parties who had undertaken to work the mines. The same mismanagement continued in successive undertakings; but there is no doubt, with judicious and economical management these beds of Iron Ore may be worked permanently, profitably, and of great advantage to the public generally. Specimens of manufactured Iron from these mines, which were sent to the London and Paris World's Exhibitions were pronounced by the Judges to be of the finest quality, and for which diplomas were given. It only requires men who understand the working of the mines, who have the capital, the energy, the enterprise and the proper judgment, to make them remunerative. There are some good lands in this Township, and they are chiefly in the occupation of those who may be regarded as thrifty and well-to-do farmers. Marble can be obtained in any quantity in this Township, and of an excellent quality. There are many kinds of marble from the pure white to the green veined, and black with yellow veins; grey and red, and in fact, almost every shade of marble that can be mentioned. There are also large and extensive beds of Lithographic Stone, which if properly worked, would prove very valuable. The Township abounds in mineral wealth, and no place in Canada presents a better field for the enterprising capitalist. The population of Marmora in 1839 was 369; it is now about 1,130. Its statistics are:

## RAWDON.

---

The Township of Rawdon is immediately north of Sidney, and is in a very prosperous and thriving condition, as the statistics will show. The settlements are of more recent date than the front. In this Township is located the Village of Stirling, now incorporated. Its inhabitants are thoroughly imbued with the spirit of commercial enterprise, as its progress has fully shown. The Township was only slightly settled when the Township of Marmora by its great mineral wealth, was brought prominently into notice. The inhabitants at an early period, bent all their energies to the cultivation of the soil, and they have been well repaid for their industry. The population of the whole Township, Village included, in the year 1839 was 1,067; at the last census it was 3,097, and it is now about 4,720. The statistics are as follows:—

	1839	1850	1859
Uncultivated Land,.....	7790	28814	40180

## SHANNONVILLE.

---

The Village of Shannonville is situated in the Township of Tyendinaga, about a mile from the shore of the Bay. It has a pleasant and healthy location, and is a thriving and prosperous place. It contains about 115 dwelling houses, and has a population of 700. There is a large Flouring Mill, with three run of stone, a Saw Mill containing 61 upright and 4 Circular Saws, owned by the Messrs. Wallbridge, and two Tanneries, located on the River Salmon, a large stream which passes through the Village, and empties into the Bay of Quinte. Shannonville has three Churches: Church of England, Wesleyan, and Episcopal Methodist; one Common School, with two Teachers, and having an average attendance of 100 scholars; 4 general stores; 4 Groceries; Carriage, Blacksmith's, and Tin Shops, and other places of business. It is distant from Belleville 9 miles.

## SIDNEY.

---

This Township is bounded on the north by Rawdon, on the east by Thurlow, on the south by the Bay of Quinté, and on the west by the River Trent, and the Township of Murray. The River Trent passes through a portion of the Township. There are nine concessions; in the fifth concession is the thriving village of Frankford. The mill privileges in the village are numerous, and most of them are occupied by Flouring and Saw Mills, Woolen Factories, &c. Sidney is one of the oldest settled Townships in the county, and any one passing through the various concessions will observe by the well cultivated farms, and the substantial dwellings and commodious barns, that the farmers generally are opulent. The soil is fertile and highly productive. Of course, it will not be expected that we shall find as great an increase in the extent of agriculture in this or any of the old Townships, as we shall find in those more recently settled. The statistics are as follows: its present population is 5,390; at the last census it was 4,574; and in 1839, it was only 2,768, showing a steady increase.

## STIRLING.

---

The village of Stirling was incorporated in 1858. It is situated in the Township of Rawdon, is surrounded by a good agricultural country, and being in a central position commands a large trade. Its buildings are of an excellent class, well finished, and composed of durable material. It has made rapid progress within the past few years, and from its natural position, and having an enterprising and wealthy people, is destined to become an important Inland Town. It is distant from Belleville 15 miles, Trenton 15 miles, Frankford 7 miles, Marmora 15 miles, Hastings 17 miles, and Campbellford 19 miles; population, about 1,000. There are several first-class dry goods stores and grocery shops, and mechanics of various kinds. It has one of the finest flouring mills in the county—a substantial stone building, 4 stories high, and 50 by 72 feet—carried on by Mr. William Baker. There is also a Woolen Factory, a Sash and Blind Factory, Tanneries, Carriage, Cabinet and Cooper's shops. The Factories are supplied with water from Rawdon Creek, a small tributary of the Trent. It has several churches, two well conducted common schools, and a Grammar School. The village has a pleasant situation, and is remarkably healthy.

# THURLOW.

The Township of Thurlow fronts on the bay of Quinte. There is less broken land in this Township than any other in the County. Belleville is in Thurlow, and has of course, greatly assisted the Township. The mill privileges in Thurlow are very numerous, and they are brought into requisition quite as fast as the growing wants of the country require. In 1839, the population of the Township, exclusive of the town, was 2,037; at the last census it was 4,469; and it is now about 5,350. There are several small villages growing up in Thurlow, the most important of which is Canifton, about 2½ miles from Belleville. At this place there are some excellent water privileges, a number of which are occupied. There are two or three flouring mills, two extensive tanneries, some large saw mills, a stave machine, woolen factory, and other manufacturing establishments, which do a good business. The following are the statistics of the township:—

	1839	1850	1859

# TRENTON.

---

Trenton is an incorporated village, and Port of Entry at the mouth of the River Trent, and at the head of the Bay of Quinte, containing a population of over 1,500 inhabitants. A great portion of this village before its Incorporation, was situated in the Township of Murray, and County of Northumberland, but since that time it has formed a portion of the County of Hastings. Its situation is beautiful and picturesque, and many a spot on the high lands and ridges which almost surround it present delightful views of the Bay, the River, and the surrounding country. To the naturalist and geologist, it presents much of special interest, and particularly to the latter, as *here* are the upper and lower shaly beds of the Trenton Limestone in the Lower Silurian series of rocks, abounding in fossils. It has on its confines three Grist Mills with one three miles up the River, built by the late C. Weaver, Esq., where there is also a Distillery. On its eastern side there is the large steam Saw Mill of Messrs. Gilmour & Co., the steam Grist Mill, Distillery and Brewery of J. Flindall, Esq., whilst lower down on an Island in the Bay, are the Steam Saw Mills of Messrs. Baker & Co. Trenton is well supplied with Merchant's Stores of every description, and two Tanneries, Carding Machine, &c., meet the wants of the community in this department. Above this village, however, and for several miles back and beyond Frankford, there are Mill sites in abundance, and such as, if only in the hands of capitalists, from the copious supply of water, would afford an ample manufacturing power for a large number of Cotton, Flax and Woolen Mills, and such as should give it something of the aspect of the celebrated Lowell—the Manchester of the United States.

A large business is done here in the rafting of Square Timber for the Quebec market. A large quantity is brought down the River, and in the year 1860, it amounted to nearly 4,000,000 of cubic feet, whilst it is also brought here from St. Mary's in the County of Perth in the most western portion of the Province, and Lindsay in the County of Peterboro, by the Grand Trunk Railway. This year the quantity brought from St. Mary's thus is 175,000 cubic feet, all Elm, whilst from Lindsay 95,000 cubic feet, one-fourth of which is Elm, the rest Pine, has been transported here, discharged into the River, and rafted for Quebec. An immense number of Saw Logs come down the River for the supply of the Saw Mills, and during the season of navigation, many millions of feet of sawed lumber are shipped here by schooners for Oswego and elsewhere.

The Exports from Trenton in 1859 to the United States and elsewhere, were :—

## TUDOR.

---

The Township of Tudor is situated immediately in the rear of Madoc, from which it was separated and erected into an independent Municipality in the year 1859. The opening up of the Hastings Road, by the Government in giving free Grants, has been the chief means of developing the resources of the Township, and has added largely to its population and wealth. Five years ago there were but seven or eight settlers in the Township; now there are nearly three hundred resident landholders. The soil is on a blue limestone formation, and is considered good for agricultural purposes. From the large quantity of land in process of being cleared, and it being a heavy timbered country, large quantities of Potash are annually made. In different parts of the Township Lead Ore in quartz has been found on the surface, and there is no doubt but a remunerating quantity might be obtained by mining operations. Iron Ore is also found in the northern boundary of the Township. There are several mill privileges, at different points, which offer an excellent opportunity for the investment of capital. In the north-eastern portion of the Township, are several large lakes, in which fish in great quantity abound, such as Salmon, Salmon-trout, &c. Jordan about 16 miles back of Madoc, is the nucleus of a village which will eventually become a place of importance. It has two stores, a saw mill, two taverns, several mechanics, and there are two or three good mill privileges. The Township Council holds its meeting here. Population of the Township, about 1,000.

## TYENDINAGA.

---

This Township is bounded on the North by the Township of Hungerford, on the East by the Township of Richmond in the county of Lennox, on the South by the Bay of Quinté, and on the West by the Township of Thurlow.

In Tyendinaga is situated the Mohawk Reserve; and until now it has proved to be a serious drawback upon the settlement of this portion of the county, but a law passed during a late session of Parliament will bring these lands into market, thereby benefitting the Indian and the country generally. It is supposed that the Indian Reserve would sell for \$500,000 to actual settlers. This Township is one of the most fertile in the whole country; the soil is principally clay, sandy and vegetable loam, with sub-soil of gravelly marl.

Salmon River, a large stream, on which are numerous Flouring and Saw Mills, Factories, &c., runs through the Township. There are several villages, the largest of which is Shannonville, having a population of about 750. In 1839, the population of the Township was 2,092; at the last census it was 6,200, and it is now about 7,000, exclusive of the village of Shannonville. The Statistics are;

LAND REGULATIONS.—(*Continued from Fly-leaves  
at the commencement of the Book.*)

more settled upon within the following five years, that is seven years from the time of sale; and the residue within the further period of three years, *i. e.*, ten years from the date of sale; the settlement required being that there shall be at least one *bona fide* settler in authorized occupation for every two hundred acres of land; all land not so settled at the expiration of ten years from the date of sale to become forfeited and revert to the Crown absolutely, except such portions thereof as shall be found unfit for settlement, or such portions as are of very inferior quality and by reason thereof have remained unoccupied, in respect to which the Governor in Council may, upon application, dispense with the forfeiture, and cause the same to be conveyed to the original purchaser or his assignee.

6. A contract of Sale to be made with the purchaser from the Crown subject to the foregoing and following conditions; but Patents for the land to issue only to the occupants of the lots purchased deriving the claim under the vendee of the Crown, or to the assignees claiming under such purchasers and occupants who shall have complied with the conditions of settlement hereinafter mentioned, upon a certificate or other evidence that they have paid such vendee or his assignee, complied with the Contract with him for or in regard to such particular lot; and upon evidence that the party applying, or some one under whom he claims, has been resident on the said lot for at least two years continuously, and that upon the same (not exceeding two hundred acres) at least ten acres for each one hundred acres have been cleared and rendered fit for cultivation and crop, have, and actually been under crop, and that a habitable house in dimensions at least sixteen by twenty feet is erected thereon, and upon payment of the sum of four dollars as Patent Fees to cover expenses, &c. The nature and description of above proof referred to be<sup>n</sup> settled and prescribed by the Commissioner of Crown Lands.

7. All lands which shall under the foregoing conditions revert to the Crown, shall be exposed to sale at Public Auction at such times and places and on such upset price as the Commissioner of Crown Lands shall fix.

8. That in Townships which have been surveyed and laid out into lots, and where lands are now offered for sale, at four shillings per acre, or where no lands have as yet been offered for sale, and in Townships under survey or yet to be surveyed into lots, lands be sold under the following regulations, to wit:

9. That lands be sold for cash at seventy cents per acre and on time upon the following terms, *viz.*: one dollar per acre; one-fifth to be paid at the time of sale, and the remaining four-fifths to be paid in four annual instalments with interest on the purchase money unpaid.

## LAND REGULATIONS, (CONTINUED.)

10. That when the lands in a Township have remained open for sale one year after public notice thereof, the lands unsold at that period shall, at a time to be fixed and after reasonable notice given by the Commissioner of Crown Lands, be offered for sale by Public Auction at the upset price fixed for their sale as above, or at such other upset price as under special circumstances may be named by the Commissioner of Crown Lands; and that such public sales of all lands which shall remain unsold in the meantime shall take place semi-annually at times to be named therefor by the Commissioner of Crown Lands until the whole of the lands in the Township shall have been disposed of; the lands remaining unsold after any such public sale to continue open for private sale at the said upset price until the period of one week before the time at which the next public sale shall take place.

11. That all lots of land which shall have been offered as "Free Grants" and shall not have been located and occupied at the expiration of one year from the time the same shall have been so offered, shall no longer remain as "Free Grants," but shall be open for private sale or shall be exposed to public sale by Auction as part of the lands in the Township in which the same are situate, and upon the same terms as other lands therein.

12. That all lands (except those now exempt) shall be subject to settlement duties, and no Patent in any case (even though the land be paid for in full at the time of purchase) shall issue for any such land to any person who shall not by himself, or the person or persons under whom he claims, have taken possession of such land within six months from the time of sale, and shall from that time continuously have been a *bona fide* occupant of, and resident on the land for at least two years, and have cleared and rendered fit for cultivation and crop and had under crop within four years at farthest from the time of sale of the land, a quantity thereof in the proportion of at least ten acres to every one hundred acres, and have erected thereon a house habitable and of the dimensions at least of sixteen by twenty feet.

13. That all other lands not embraced in the foregoing category be exposed to sale by Public Auction annually, or in the discretion of the Commissioner of Crown Lands half yearly, for cash, at such times and places and at such upset prices as the Commissioner of Crown Lands shall fix.
